What is energetic healing?

Energetic healing is a holistic healing therapy focused on manipulating life force in order to bring about balance and wellness in the physical, emotional, and mental bodies. The body's energies are a potent force for its own healing. The life force energies are always feeding the cells, fueling the immune system, and helping dispel toxins. Energetic healing is the art and science of optimizing the body's natural energies for the highest functioning of the human system.

How do I work?

I have been trained in the art of Mediumship and Spiritual Healing, Sound Therapy, and Chakras. I use a fusion of these Healing Techniques in order to help your body and psyche clear emotional and physical blockages while bringing balance to the mind, body, and spirit. While it is tempting to believe that we can heal other people, it is of utmost importance to realize that all healing is self-healing. The body has an extraordinary intelligence and ability to heal itself; psychic readings, intuitive guidance, and energy healing are tools for awakening this intelligence for the body to self-heal!
